suchi

Product designer and design technologist with experience in enterprise SaaS, focused on simplifying complex admin, access control, and AI governance. I build and ship through AI-assisted development.

EXPERIENCE

UiPath | Associate Product Designer

Jul 2024 – Sept 2025

Check Access (Operate)

- Owned Check Access from Private Preview through GA-centralised access control across a multi-product platform
- Drove adoption by reducing setup friction and clarifying cross-service permission models
- Improved debuggability of access issues, reducing reliance on engineering and support

AI Trust Layer (Admin)

- Sole designer across four AI admin surfaces: context grounding, BYO LLM, audit export, AI governance; shipped as the platform's first centralised AI governance layer
- Unblocked ~$1.99M in stalled pipeline (97 enterprise deals) by designing audit export and AI usage visibility for compliance
- Grounded LLM responses in enterprise data with traceability, improving trust and reliability of AI outputs
- Enabled Bring Your Own LLM through a product-centric configuration model, reducing cost and compliance barriers

UiPath Admin Shell

- Re-architected the admin surface into a unified shell-navigation, IA, and page templates across a fragmented multi-product console
- Co-led the initiative; owned navigation components, page templates, and design system explorations
- Led UX audits across the admin, identifying usability gaps

UiPath | Product Design Intern

May 2023 – Jul 2023

Release Communication System

Designed a structured release notes and announcement system, improving feature discoverability and reducing information fragmentation

OTHER WORK

Portfolio

Designed and shipped a multipage portfolio site through AI-assisted development, including a documented design system and a static-to-React migration

First Aid Plus

Designed a mobile experience for real-time first-aid guidance in high-pressure emergency scenarios

Emergency Communication Case Study

Conceptualised discreet communication patterns for safety-critical situations, focusing on usability under stress

Visual & Brand design | Alcheringa Fest 2022 | IIT Guwahati Model United Nations (Edition XIV)

Designed cohesive visual systems and assets across large-scale events

EDUCATION

Indian Institute of Technology, Guwahati

Bachelor of Design (B.Des), 2024 | CGPA: 7.97/10

SKILLS

Design Disciplines:

Product Design, UX Design, Interaction Design, Design Systems, Visual Design, Information Architecture, Prototyping, Accessibility

Research Methods:

User Interviews, Usability Testing, Journey Mapping, Task Flows, Heuristic Evaluation, UX Audits

Toolkit:

Design: Figma, Adobe CC, Google Stitch, Jitter
Build: HTML, CSS, JS, React, GitHub
AI tooling: Claude, Cursor, Antigravity, Google AI Studio

ACTIVITIES

Director, Creative Content '23 | IIT Guwahati Model United Nations

Led content and communication strategy for large-scale conferences, driving engagement and event participation

Secretary, Anchorenza & RadioG Club '23 | IIT Guwahati

Managed a 70+ member club; led events, content production, and public speaking initiatives

Student Representative (B.Des) | IIT Guwahati

Department and branch representation in academic decision-making and student-faculty communication
