EXPERIENCE

UiPath | Associate Product Designer

Jul 2024 – Sept 2025

Check Access

- Shipped centralized cross-service access checking from **Private Preview to GA**, **live** for all UiPath customers across **13+ products**, architected so new services onboard without design changes
- Cut permission audit time **from hundreds of clicks**, replacing a per-service trace with one query returning all roles in a tenant in **~5 clicks**
- Improved debuggability of access issues, **reducing reliance on engineering and support**

AI Trust Layer

- Shipped the primary features on **platform's first centralized AI governance layer**- context grounding, BYO LLM, audit export, AI governance- as sole designer
- Replaced per-team retrieval pipelines with **one index configured once and consumed by every GenAI surface**, moving the work from every developer to one admin, driving **~$5M net ARR**
- Removed the cost and compliance barrier behind **$2.3M+ opportunity** in at-risk accounts by letting customers **route AI through their own subscriptions**
- Designed the export flow, retention tiers, and provenance model for AI audit logs; **unblocking** missed opportunities across **97 enterprise deals**

UiPath Admin Shell

- Re-architected a fragmented multi-product admin console into a **unified shell-navigation**, **IA** and **page templates**
- Turned the page template and content revamp into **documented guidelines** the team reused to design subsequent admin features
- Led UX audits and heuristic evaluations across the admin surface, **driving fixes with engineering** and **shaping** scope for the **following release**

UiPath | Product Design Intern

May 2023 – Jul 2023

Release Communication System

Designed a structured release notes and announcement system, **improving version release and feature discoverability**, reducing information fragmentation

OTHER WORK

Portfolio

Designed and shipped a multipage portfolio site through **AI-assisted development**, including a documented **design system** and a **static-to-React** migration

First Aid Plus

Designed a **mobile experience** with real-time first-aid guidance for degraded attention under stress

Emergency Communication

Case study on **discreet help-request patterns** for situations where visible phone use is itself the risk, focusing on **usability under stress**

Visual & Brand design | Alcheringa Fest 2022 | IIT Guwahati Model United Nations (Edition XIV)

Designed cohesive **visual systems and assets** across large-scale events

EDUCATION

Indian Institute of Technology, Guwahati

Bachelor of Design (B.Des), 2024 I CGPA: 7.97/10

SKILLS

Design Disciplines:

Product Design, User Experience Design, User Interface Design, Interaction Design, Design Systems, Information Architecture, Prototyping, Visual Design, Accessibility

Research Methods:

User Interviews, Usability Testing, Journey Mapping, User Flows, Heuristic Evaluation, UX Audits

Toolkit:

Design: Figma, Adobe CC, Google Stitch, Jitter
Build: HTML, CSS, JS, React, GitHub
AI tooling: Claude, Cursor, Antigravity, Google AI Studio

ACTIVITIES

Director, Creative Content '23 | IIT Guwahati Model United Nations

Led content and communication strategy for large-scale conferences, driving engagement and event participation

Secretary, Anchorenza & RadioG Club '23 | IIT Guwahati

Managed a 70+ member club; led events, content production, and public speaking initiatives

Student Representative (B.Des) | IIT Guwahati

Department representation in academic decision-making
